

Carolina Ferreyra

UX/UI Designer - Product Designer

UX/UI Designer focused on transforming complex ideas into clear, accessible and impactful digital experiences.

I combine visual design, strategic thinking and AI-driven workflows to optimize processes, accelerate iteration and deliver user-centered solutions.

I enjoy collaborating with multidisciplinary teams, exploring ideas, testing hypotheses and continuously improving products that create real value.

Work experience

UX/UI Designer

 Knowmadmood (Ene. 2025 - Present)

- Design digital solutions for technology projects, transforming complex requirements into intuitive user experiences.
- Define information architecture and user flows aligned with business goals.
- Integrate AI tools to accelerate research synthesis, benchmarking and opportunity exploration.
- Use AI to support UX writing, ideation and early validation of concepts.
- Develop rapid prototypes to support decision-making.
- Apply AI to generate images, videos and documentation, optimizing design workflows.
- Participate in pre-sales processes by estimating design efforts and proposing strategic approaches.
- Collaborate with multidisciplinary teams in hybrid and multicultural environments.

Internship UX Designer

 **DATALOG** (Apr. 2024 - Jul. 2024)

- Designed the experience of a platform to visualize water, gas, and electricity consumption for citizens in Barcelona.
- Transformed complex data into clear and accessible dashboards.
- Defined information architecture and user flows prioritizing usability.
- Coordinated with the development team to ensure technical feasibility.
- Conducted usability testing and iterated based on user feedback.
- Documented design decisions to ensure product consistency.

Contributor as a UX Designer

 **+Women in UX** (Feb. 2023 - Present)

- Researched user needs and opportunities within the Web Squad.
- Analyzed qualitative data to generate insights.
- Organized educational events about UX and digital design.
- Promoted inclusion and professional growth within the tech community.

Creative Project Manager

 **Modo casona** (May. 2019 - Feb. 2024)

- Led creative projects from concept to execution.
- Coordinated multidisciplinary teams managing resources, timelines and budget.
- Applied agile methodologies to optimize processes.
- Designed experiences aligned with the identity of the space and its community.
- Developed solutions that strengthened the connection with users.
